Next generation technology offering
you significant cost savings.

How it Works

1. You take a payment for a guest through your reservation management software

2. Your reservation management system passes the information securely to the VRP gateway

3. VacationRentPayment then processes the transaction

4. The funds are deposited in your bank account

Did you know: VacationRentPayment is both Payment Card Industry (PCI) compliant validated and SAS 70 Type II certified. Maintaining the PCI Compliance Validation and SAS 70 Type II certifications are just another two reasons why VacationRentPayment is the most trusted payments processor for the vacation rental industry.
